

## WVHAMP Provider Spotlight

Leigh Brooks, MSN, APRN, FNP-C

A Family Nurse Practitioner at Bluestone Primary Care in Princeton, WV, she is the Medical Director for the Office Based Medication Assisted Treatment (OBMAT) program for opioid use disorder at Bluestone. She participated in the March 2020 WHAMP training and has since treated her own OBMAT patients and patients that are referred to her from other providers. She provides OBMAT services and HCV treatment within a primary care setting where she is able to develop a strong rapport with her OBMAT patients to meet their other healthcare needs. Leigh has submitted the most consults and has achieved the most cures in the WVHAMP program with 224 of the 593 initial consults and 207 cured so far for a 98.1% cure rate.
